Mr. John Bennett  
Administrative Manager  
Milbank Manufacturing Company  
1400 East Havens Street  
Kokomo, IN 46901

Dear Mr. Bennett:

Re: Operation Permit Status

Based upon a field investigation by our staff, it has been determined that your facility at the above address is exempt as set forth under provisions in Section 4 of Regulation APC 19.

Please maintain this letter as your record that a permit to operate is not required at this time. Regulation APC 19 further states that notification of any changes in your operation which may result in increased emissions must be submitted to the Board.

Very truly yours,

Ralph C. Pickard  
Technical Secretary

## FIELD INSPECTION REPORT

Name Milbank Manufacturing Co.  
(Company or Individual)Address 1400 E. HavensCity/Town KokomoCounty Howard

Complainant and Address \_\_\_\_\_

Persons interviewed and association with problem John Bennett - Administrative Manager

## SUMMARY OF INVESTIGATION AND RECOMMENDATIONS:

Purpose: permit renewal inspection

Type of Plant: manufacture electrical meter mounting devices

## A. Electro-deposition paint dip tank

Metal parts are conveyed thru detergent and water rinse spray compartment, through a gas-fired dry-off oven, and into an electro-deposition paint dip tank. Paint usage in the dip tank is 90 gal/month, and solvent usage is 10 gal/month. There are no particulate emissions from this operation.

HC Emissions (Toluene T-85-62)

 $.5 \text{ gal/day} \times 12 \text{ lbs/gal} = 6 \text{ lbs/day HC emissions}$  $120 \text{ gal/yr} \times 12 \text{ lbs/gal} = .7 \text{ tons/yr}$ 

no permit required for this operation as per APC-19

## B. Spray Booth

Metal parts are conveyed into a spray booth where
